Operational Driving Tactics

This course is designed for law enforcement and security personnel seeking to develop the operational skills for driving tactics and techniques in emergency security related situations.

These topics are listed in a generalized version and are not in a chronological order. The list does not include sub topics:

- Principles of offensive and defensive driving
- Emergency driving techniques
- Aggressive pursuit techniques
- Countersurveillance driving techniques
- Combat shooting from a vehicle - static and moving in all forms
- Self defense techniques inside and outside a vehicle
- The using of the vehicle as an operational weapon
- Using objects inside a vehicle for operational purposes
- Searching and checking of a vehicle
- Techniques for dealing with a suspicious vehicle
- Evasive driving techniques
- Driving techniques at night and low visibility
- Operational driving after being injured
- Security procedures and regulations in foreign countries
- Field territory knowledge
- Selection of operational vehicle for specific objectives
- All terrain and environment driving

Note: Additional training is required for specific security functions in:

- Executive protection driving tactics
- Antikidnapping driving tactics
- Surveillance driving tactics
- Antiterror driving tactics
